

League Rules Directory

This directory contains the official rules and guidelines for all leagues and sports at Stanton City Park. Each subfolder provides detailed rules, age guidelines, and league-specific information for the corresponding sport or league.

Structure

- Each sport or league has its own subfolder (e.g., Softball, Baseball, Soccer, AdultSoftball, etc.).
- Each subfolder contains a README.md file with the rules and guidelines for that league.

Leagues

Adult Leagues

The Stanton City Park offers a number of Adult Leagues. These leagues typically play their games on the weekends or in the evenings are meant to keep adults in the community engaged with sports and activities that they have played for all of their lives.

Youth Leagues

The Stanton City Park offers many Youth Leagues throughout the season. These leagues typically play their games on the weekends or in the evenings

and are meant to keep kids in the community active, build teamwork skills, and develop a love for sports at an early age.

General Park Rules

All participants in any league must adhere to the [Stanton City Park Rules](#), without exception.

For detailed rules for each league, refer to the README.md file in the corresponding subfolder.

Common League Rules

Required Protective Equipment For Catchers

Any player in a Baseball or Softball division occupying the catcher position behind home plate while a live pitch is being delivered is required to wear full catcher's protective equipment, including: * Catcher's helmet with face mask and throat protection * Chest protector * Leg guards (shin guards) * Athletic cup (Required for all male players in baseball)

No player may assume the catcher position behind home plate during live play without the required protective equipment. Umpires and league officials have the authority to delay or suspend play until the catcher is properly equipped.

Youth League Drafting

Some youth leagues at Stanton City Park operate as competitive leagues where scores are kept and standings are maintained throughout the season. To ensure fair and balanced team composition, all competitive youth leagues utilize a structured draft process.

Draft Structure

Serpentine Draft Order: The draft employs a serpentine (snake) draft format, meaning the draft order alternates in each round. Rounds progress as follows: Round 1 goes 1, 2, 3... in order. Round 2 reverses to 3, 2, 1... in order. This pattern repeats for each subsequent round, ensuring that no team consistently picks before or after others.

Draft Coordinator

A **Draft Coordinator** is assigned by the Stanton Parks & Recreation board to oversee and manage all aspects of the draft. The Draft Coordinator serves as a neutral party to ensure the draft runs fairly and according to established rules. The Draft Coordinator will not be a coach in the league.

Reserved Players

Teams may reserve players before the draft begins under the following conditions:

- Each team may designate **one Head Coach and one Assistant Coach** maximum.
- If both the Head Coach and Assistant Coach have children or players in the league, those coaches may reserve their players before the draft begins.
- **Each reserved player will cost the team one draft pick.** For example, if a team reserves two players, they will forfeit their first two draft picks.
- A team may reserve a **maximum of two players** for drafting purposes.
- Reserved players must be declared before the draft begins.

Draft Authority

The Draft Coordinator has the authority to make adjustments to draft day procedures and rules as needed during the draft to ensure fairness and maintain competitive balance. Any rule modifications will be announced to all teams before implementation.
